

## ETHD

"ETHD": ETHERNET INTERFACE FOR INDICATORS

Small size, excellent signal quality, support of the most common network protocols are just a few features of this product, which allows for a network connection of any scale or weighing system to the company's computer system through the RJ45 connector; it's easy to install and it's fitted with a cable for the connection to the indicators

The module does not exclude the use of other Dini Argeo products on the system, such as Control Light, Alibi Memory, attached or external printer.

**The best solution  
for advanced industrial  
applications**

## TECHNICAL FEATURES

- Connection to the mains through the standard RJ45 connector
- Mains interface: 10/100 Base-T
