

M1GHISA

M1 PRECISION CLASS CAST-IRON OIML WEIGHTS

CAST-IRON weights suitable for use in legal metrology and industrial applications. The M1 precision class allows for the use of these weights for the check and calibration of class III scales and instruments up to 10000e.

Our solutions for quality assurance and certainty of your measurements.

MAIN FEATURES

- In compliance with the OIML - R111 Recommendation
- M1 precision class
- In painted or nickel-plated cast iron
- Initial verification stamp available upon request (not intended for WBX20500 weight holder mass)
- ACCREDIA (EA) calibration certificate available upon request
- Available with aluminium or wooden case
